

*In our business, we can't wait on layers
of paperwork and approvals.*

Bruce Henderson

President, Henderson Services LLC

When Bruce Henderson decided to buy back the company his grandfather had founded, he chose the commercial experts at Commonwealth Bank. We responded with a growing spectrum of services ranging from line of credit to payroll to the latest remote deposit. "The electrical contracting business is all about people and relationships," says Henderson. "I wanted a bank that feels the same way."

If your business is looking for commercial services and a banking relationship that responds to your needs, give our commercial experts a call at 259-2460 in Jefferson County or 633-1000 in Shelby County.

Commonwealth Bank means business. Your business.

Doing more is what we do best.
